

get ready for the  bArk™

Maggie is modeling a pair of Originalz goggles by Doggles™

 Maggie likes to travel in style. The bArk™ trailer comes in a range of sizes tailored to carry dogs from little Miffy to 110lb Duke. With a quick hitch system the bArk™ fits any bike in seconds. The box also dismounts quickly for use as a standard pet box, and when not in use the bArk™ disassembles easily for storage. In fact, you could say the bArk™ is a dog's best friend. 

Maggie and her goggles are used with the kind permission of the folks at Doggles™
Protecting the world... One dog at a time™
